## The #One Twitter Marketing Tool for Marketers

A Powerful, Reliable and Easy to Use Automation Tool to Boost Your Twitter Marketing

Twitter, with its 313 million monthly active users, has become a great marketing platform for businesses today. With its growth targeting, detailed analytics, promotional tactics and marketing tools, Twitter is definitely a great arsenal in your digital marketing tool kit.

Many brands are marking their presence on Twitter just like a normal user, but how confident are you for obtaining positive results, and are you able to measure the impact of their tweets on the microblogging network? So the difficulty remains: Who will you reach on Twitter? How will you reach them? How effectively are you using this platform? How can you tell if you've done a good job?

Follower

Follow multiple accounts from your accounts uploaded.

Tweet

Keep your accounts active. Easily Retweet or Reply using trending keywords.

Unfollower

Get rid of users who are not following you back easily with a click

Friend Adder

You can add targeted friends in your account. Targeting can be done based on Geo-Location or from fanpages.

Retweet & Favorite

Resell or increase RTs & FAVs of specific tweets in no time.

Campaign Manager

Easily create different campaigns for different process and run them all together.

Scrape Users

Scrape users from keywords, names and also get a list of trending hash tags easily.

Account Actions

Allows you to always use the best accounts for your process and campaigns.
